- Support line available to clients and service providers
- Assessments completed by qualified health professionals
- Access to same-day and next-business day appointments to buprenorphine and naltrexone
- Access to methadone available

# Treatment Services

---

- Medication access, funding, and delivery available in partnership with the Albany College of Pharmacy and Health Sciences' network of pharmacies
- Referral and supportive service navigation to local treatment, prevention, peer, and social care services for every caller
- Workflow integration with existing Capital MATTERs hospital-based referral platform

The image features two white telephone handsets, one positioned above the other, set against a solid blue background. The handsets are oriented horizontally, with their cords extending outwards. The top handset's cord is on the left, and the bottom handset's cord is on the right. The lighting is soft, highlighting the smooth, curved surfaces of the plastic handsets.

**Community Support Line  
(518) 390-2183**

# Recovery Services

---

- Expanded availability of peer services
- Support for individuals who want to find treatment and overcome barriers to recovery
- Training, certification, and support for individuals wishing to become peers
- Enhanced relationships with law enforcement, EMS, hospitals, etc.

# Prevention Services

---

- Free evidence-based programs for youth and families
- Support for families who have loved ones struggling with addiction
- Strengthening Families for parents and their children
- Teen Intervene for teens who are having problems at home or school
- Available for partnerships with community stakeholders and service providers to deliver programs

Reach out with questions, collaboration opportunities, and requests for presentations.
